WORK EXPERIENCE

Muhammad Awais - Haroonabad

Frontend Developer (Remote)

Aug 2024 - Oct 2024

- Utilized HTML5, CSS3, Bootstrap, and Tailwind CSS to craft responsive web pages that ensured seamless cross-browser compatibility.
- Designed and developed dynamic, interactive user interfaces using JavaScript and React.js, providing an engaging experience for users.
- Effectively managed code changes and collaborated with team members using Git and GitHub, ensuring efficient version control and teamwork.
- Conducted thorough research to integrate third-party libraries, expanding the functionality of web applications and enhancing overall user experience.

EDUCATION

Virtual University of Pakistan

Bachelor of Science in Software Engineering - 3.00 GPA

2019 - 2024

Relevant Coursework:

Introduction to Programming, Object Oriented Programming, Data Structures and Algorithms, Digital Logic Design, Database Management Systems, Software Engineering, Software Quality Engineering, Web Design and Development, System Design, Operating Systems, Data Communication, Computer Networks, Linear Algebra, Applied Statistics

PROJECT

Personal Portfolio Website [🔗](#)

Nov 2024 - Jan 2025

- Designed a responsive website using Adobe XD, showcasing skills and projects with a modern and interactive user experience.
- Utilized React.js, Tailwind CSS, Node.js, and JavaScript (ES6+) to develop a website that is both visually appealing and functional.
- Implemented modern animations and mobile-friendly layouts to enhance the user experience.
- Deployed the project on Netlify, ensuring fast and reliable hosting for a seamless user experience.

Food Buddy – A Food Ordering and Delivery Website [🔗](#)

July 2023 - Jan 2024

- Developed a food ordering system using **React.js** for the front end, **Node.js** for the back end, and **Tailwind CSS** for responsive UI design. Integrated a database for **order** and **user management**, and utilized **GitHub** for version control. Demonstrated proficiency in **full-stack development**, **responsive design**, and **database integration**.

GitHub Account Info [🔗](#)

2025

- Designed** and **developed** a **responsive web app** to display **GitHub account information** using the **GitHub API**.
- Utilized **React.js**, **Tailwind CSS**, and **Axios** for efficient **data fetching**, creating a **modern UI/UX design** and ensuring responsive layout and performance.
